

HPMC

HYDROXYPROPYL METHYL CELLULOSE

HPMC

CELIX®HPMC produced by CELIX has good thickening, water retention, suspension, emulsification, adsorption and stability. A variety of models can meet various application needs of different customers.

Advantages of HPMC Products

Water retention
Excellent water retention

pH
Excellent water retention

Thickening
Strong thickening ability

Density
Uniform density distribution

Viscosity
Controllable high viscosity

Dispersibility
Easy dispersion performance

Product Specifications

	Specification	Index
	Exterior	White or light yellowish white powder
	Methoxyl,%	19 - 24
	Hydroxypropyl,%	7.5 - 12.0
	Gel temperature,°C	60 - 70
	Moisture,%	≤5
	Ash,%	≤5
	pH value	6 - 8
	Viscosity(2%, 20°C, Mpa.s)	350 - 200000
	Graininess	98% passed 80 mesh
	Density	370 - 390g/l³
